

Chicago Title Announces the Most Innovative Farming Tool **EVER.**

The **WALKING FARM!**

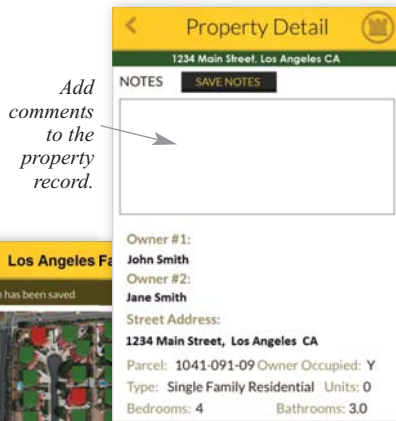

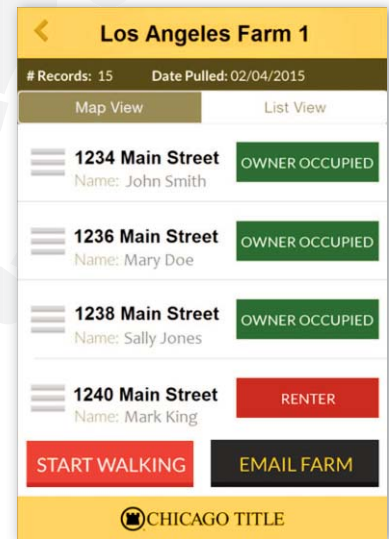

NOW FEATURING SUBDIVISION SEARCH!

HOW THE APP WORKS:

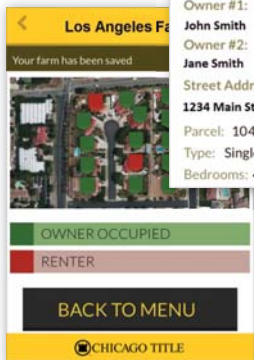

Using the Chicago Title Walking Farm, you simply select the area you want to walk by drawing a line using your FINGERTIP through the properties on an aerial map in the order you intend to walk the Farm. Or select a Subdivision area or draw boundaries for a polygon search.

Start Walking or View Farm:

There are two ways to view your farm, either in a List View or in the Single Property View format. The Interactive Single Property View allows you to add comments to each property record. When you're ready to walk to the next property, simply use your FINGERTIP to swipe the screen to the next property in your Walking Farm. The List View format displays multiple properties on a page using our scrolling feature.

Add comments to the property record.

Save your farm data to use again.

ADDITIONAL FEATURES:

Export the Farm, View Saved Farms, and the ability to Change the Walking Order of the Farm.

Available exclusively through CHICAGO TITLE !
