

More Great Changes to the #1
Closing Cost App in the Country!

ChicagoAgentONE

Hi there! I just wanted to share some good news with you. Apple has finally approved the latest update of Chicago Agent One!

Here's a few key items in this update:

- Introducing Monthly Affordability Plus! Tap on the plus icon on the banner, then simply input your buyer's desired monthly payment and bring to close, and we'll generate the house price! One of our most difficult calculations and it's all done in a snap.
- Buyer Tab: We've made some adjustments to editing the monthly payment and bring to close. Whenever they are edited, the house price stays the same which not only enhances the feature but also makes it more practical when working with buyers.
- Signature feature: Choose from a signature template or simply use your finger. We've also added the date next to each signature.
- Multiple offer feature: We've made several fixes and enhancements, including the ability to edit the closing costs, splits, etc, per offer.
- Extra payment: Changes to how we're displaying the results including a brand new dynamic slider.
- Performance enhancements and so much more!

There are so many other great features I'd love to sit down and show you. If you're not already using Chicago Agent One for your business, now's the time. Please contact me today to get set up. It's truly a game-changer in our business!

If you have any questions, comments, etc, please don't hesitate to reply to this email!

Here's to a successful year!
