# Enhanced Capabilities to Help You Work Faster and Smarter

eFarms 2.0

Use Chicago Title's Market-Leading Property Data and Analytics to Build Your Business.

Chicago Title's eFarms 2.0 enhancements deliver a more optimized user experience. The enhanced interface provides quicker results, updated report styles, no list count limitation, as well as many other new features and capabilities such as:

- **Multi-County Searching** - The ability to search multiple counties at once.

- **Neighborhood Searching** – Locate communities using turnover ratio statistics, years owned, sales price and number of properties. Filter your search within communities using number of years owned, purchase date and more.

- **Free and Clear Properties** – The ability to search for properties that have no Mortgages. (Implied)

- **More Intuitive, More Streamlined** - Easier to use, easier to understand. You see exactly what you are searching.

- **Instant Counts** - Get record counts real time as you add or delete criteria to your search.

- **Enhanced Geographic and Combined Search Capabilities -** In addition to searching multiple states and and counties at a time, you can even combine multiple types of geographic searches such as polygons from one county and zip codes from another. The options are endless!

- **Interactive Maps** - Intuitive mapping. (Polygon & Radius)

- **Save and Reuse Export Templates** User defined export templates.

- **Suppression** Remove duplicates from previous downloads.

Call me today to find out more about the enhanced eFarms 2.0 and how we can help you grow your business!
